To The Tapani Team:

I started working with Dan Tapani Excavating in 1980. From that point forward they have done all our excavation. Over the years, we have done many projects, some very difficult and interesting jobs that have taken lots of thought. They have treated me with the utmost respect and all work has been perfect every time. They have become not only a huge part of my construction team, but they are good trustable *friends*. I would recommend there service to anyone, they are very capable.

With Sincere Gratitude,

Bradley S Thomas
Vice-President
